DETAILED ACTION

Drawings

The replacement drawings for Figures 1, 3, and 4 were received on July 21, 2005. These drawings are accepted by the Examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification page 11, line 2: Replace "at" with --with a--.

Specification page 13, line 15: Replace "that to the" with --with a number of service instances to be--.

The following is an examiner's statement of reasons for allowance: The prior art teaches related memory allocation systems but fails to teach the combination including the limitation of:

(Claim 1) "...determining an accumulative memory space requirement for each service instance of the plurality of service instances, the accumulative memory space

requirement accounting for service instances that depend from a given service of the plurality of service instances; identifying a subset of service instances of the plurality of service instances whose memory space requirement exceeds the memory space requirement of the service request, the identified subset of service instances having a minimal number of the service instances of the plurality of service instances”;

(Claim 6) “...determining a ratio for each service instance, of the plurality of service instances, where the ratio is defined as the accumulative memory space requirement divided by the number of dependent service instances; and performing a memory resource management operation in relation to the service instance of the plurality of service instances having the largest ratio”;

(Claim 12) “...building a dynamic programming table for the plurality of service instances, such that the entries in the dynamic programming table indicate an amount of memory space that can be attained by deleting a subset of the service instances”.

Claims 2-5, 7-11, and 13-17 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
